

First name: Tori

Please describe in your own words any changes you have noticed from the treatment Dr. Cha has provided.

Before The Treatment, I struggled with a lot of tension in my neck and head, nasty migraines and noticed I was grinding my teeth a lot. After only a few weeks, I've noticed less tension, less headaches, and less grinding! I feel comfortable when I sleep knowing my jaw joint is where it needs to be and is protected. Couldn't be happier with The results so far!
